19 Trust Land Transfer (00-2-001)

20 The state building construction account appropriation in this  
21 section is subject to the following conditions and limitations:

22 (1) The total appropriation is provided to the department solely to  
23 transfer from trust status or enter into thirty-year timber harvest  
24 restrictive easements for certain trust lands of state-wide  
25 significance deemed appropriate for state park, fish and wildlife  
26 habitat, natural area preserve, natural resources conservation area,  
27 open space, or recreation purposes.

28 (2) Property transferred under this section shall be appraised and  
29 transferred at fair market value. The value of the timber transferred  
30 shall be deposited by the department to the common school construction  
31 account in the same manner as timber revenues from other common school  
32 trust lands. No deduction shall be made for the resource management  
33 cost account under RCW 79.64.040. The value of the land transferred  
34 shall be deposited in the natural resources real property replacement

1 account. These funds shall be expended by the department for the  
2 exclusive purpose of acquiring real property of equal value to be  
3 managed as common school trust land.

4 (3) Property subject to easement agreements under this section  
5 shall be appraised at fair market value both with and without the  
6 imposition of the easement. The entire difference in appraised value  
7 shall be deposited by the department to the common school construction  
8 fund in the same manner as lease revenues from other common school  
9 trust lands. No deduction shall be made for the resource management  
10 cost account under RCW 79.64.040.

11 (4) All reasonable costs incurred by the department to implement  
12 this section are authorized to be paid out of this appropriation.  
13 Authorized costs include the actual cost of appraisals, staff time,  
14 environmental reviews, surveys, and other similar costs.

15 (5) Intergrant exchanges between common school and other trust  
16 lands of equal value may occur if the exchange is in the interest of  
17 each trust, as determined by the board of natural resources.

18 (6) Prior to or concurrent with conveyance of these properties, the  
19 department, with full cooperation of the receiving agencies, shall  
20 execute and record a real property instrument that dedicates the  
21 transferred properties to the purposes identified in subsection (1) of  
22 this section for a minimum period of thirty years. The department of  
23 natural resources, in consultation with the receiving state agencies,  
24 shall develop policy to address requests to replace transferred  
25 properties subject to the recorded property instrument that are no  
26 longer deemed appropriate for the purposes identified in subsection (1)  
27 of this section.

28 (7) The department and receiving agencies shall work in good faith  
29 to carry out the intent of this section. However, the department or  
30 receiving agencies may remove a property from the transfer list in  
31 subsection (8) of this section if, based on new, substantive  
32 information, it is determined that transfer of the property is not in  
33 the state-wide interest of either the common school trust or the  
34 receiving agency.

35 (8) The appropriation in this section is provided to execute  
36 transfers or easements for the list of properties identified in LEAP  
37 capital document No. ((99-3)) 2000-4, as developed on ((April 8, 1999))

February 28, 2000, as follows: Projects in category A shall be transferred; to the extent that local funding is provided for the land value of the property, projects in category B shall be transferred; and projects in category C and remaining projects in category B may be transferred or leased as funding allows.

(9) The department shall execute trust land transfers and easements such that 90 percent of the appropriation in this section is deposited in the common school construction fund. To achieve the 90:10 ratio, the department may offset transfers of property with low timber-to-land ratios with easements on other properties.

(10) On June 30, 2001, the state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction fund and the appropriation in this section shall be reduced by an equivalent amount.

18 NEW SECTION. **Sec. 30.** A new section is added to 1999 c 379 to  
19 read as follows:

20 Salmon Recovery Program

21 The appropriation in this section is provided to the following  
22 agencies for the following purposes:

23 (1) **For the Department of Fish and Wildlife**

24 (a) \$100,000 is provided solely to implement methods to reduce the  
25 by-catch of listed salmon stocks.

26 (b) \$2,000,000 is provided solely for the following purposes in the  
27 Methow river valley:

28 (i) \$500,000 to develop baseline hydrological data for the Methow  
29 river;

30 (ii) \$750,000 to purchase water rights pursuant to chapter ...  
31 (Senate Bill No. 6525), Laws of 2000. If chapter ... (Senate Bill No.  
32 6525, Laws of 2000 is not enacted by June 30, 2000, this subsection  
33 (1)(b)(ii) is null and void and the appropriation in this subsection

(1)(b)(ii) shall be used for the purposes of (b)(iii) of this subsection; and

(iii) Not less than \$750,000 to provide salmonid screening. Any such screening provided for a point of diversion for a water right in the Methow river valley shall be sized to accommodate: (A) Not less than the annual amount of water diverted at that point of diversion during any of the five years beginning with calendar year 1994 and ending with calendar year 1998; and (B) not less than the instantaneous amount of water diverted at that point of diversion at the peak of diversion during any of those five calendar years.

(c) \$950,000 is provided solely for grants to lead entities established in accordance with RCW 75.46.060.

(d) \$880,000 is provided solely for contracted engineering services for habitat projects.

(e) \$5,000,000 is provided to buy back commercial licenses for salmon fishers. If the department of fish and wildlife is allocated \$14,000,000 or more of federal money during the biennium to buy back commercial fish licenses, the appropriation in this subsection (1)(e) shall be distributed sixty percent to buy back Puget Sound purse seine, gill net, and reef net commercial salmon licenses and forty percent to other commercial salmon licenses. If the department is allocated less than \$14,000,000 of federal money during the biennium to buy back commercial fish licenses, the appropriation in this subsection (1)(e) shall be distributed eighty percent to buy back Puget Sound purse seine, gill net, and reef net commercial salmon licenses and twenty percent to other commercial salmon licenses.

**(2) For the State Conservation Commission**

\$1,000,000 is provided solely for grants to the Columbia ground water management area for the irrigation water management cost share program and for public health information to households with at-risk infant water users.

**(3) For the Department of Agriculture**

\$150,000 is provided solely for the agriculture, fish, and water negotiation process. If an appropriation equal to or more than the appropriation in this subsection (3) for the same purpose is provided in the omnibus operations appropriations act, the appropriation in this

1 subsection (3) shall be used for the same purpose as section 18(3) of  
2 this act.

3 (4) **For the Interagency Committee for Outdoor Recreation**

4 \$250,000 is provided solely for the development of a strategic plan  
5 to improve the accuracy and availability of information needed for  
6 planning and managing natural resources in the state. The plan shall  
7 address the collection, analysis, and management of information  
8 consistent with the national spatial data infrastructure framework  
9 being supported by the Washington geographic information council.

10 (5) \$2,000,000 is provided solely for deposit into the advanced  
11 environmental mitigation revolving account created in RCW 47.12.340 to  
12 mitigate the adverse impacts upon the environment from transportation  
13 projects.
